Suit measurements are 'driver' sizes (not suit sizes) and have been provided to give you an accurate guide to sizes to ensure your Driving Suit fits you perfectly. There is a lot of flexibility in the sizing of our Driving Suits. Because Driving Suits are not a tight fitting garment, each suit size will cover a range of driver sizes which are close to the measurements. Please note that it is more likely that the length measurements (B,F,G) will dictate suit size required.
